RAGS. \$550 in Premiums. HAVING largely increased my supply of Rags by the premiums offered the past year ending June 80. 1

am induced to offer a larger amount of premiums for the present year. And will pay the above premium in sums of\$100, \$90 \$50, \$70, \$60 \$50, \$40, \$30, \$20 and \$10, to any ten merchania, or "Pediars"—who will deliver me, from this date to the 1st July, 1856, the largest amount of RAGS The same to be bought outside of and by men do ing business outside of Nashville or vicinity. I will at all times pay the highest market prices is cash for RAGS on delivery, and issue a certificate to the owner of the amount received and paid for. These certificates must be kept and sent in on or before the 1st day of July nex, so that three disinterested merchants of Nashville. out make the awards. The surgest amount being entitled to the \$100, the next largest to \$50, and so on down. Merchants sonding me rags will please write that I may know in whose name to issue the certificate. Combinations

will not be allowed.
Wooden, Licasey, Silk and Worsted rags are not wanted, and will not be included in the above.

I currectly solicit greater attention to saving and buying Rags throughout Middle Tenn. July4-lydtriw&w W. S. WHITEMAN. North of the Square A VALUABLE TRACT OF LAND FOR SALE. 1111 ondersigned offers his valuable Farm, situated in Coffee County, three miles from Felham, and six piles from Hillshore', on the road from Nashville to Chat-mosga, and about three hundred yards from the Pleasant

Plans Male and Female Institute, and contains about four hundred and swenty-five acres. Said farm has been long esteemed one of the very best in the county, and located in a bestifty section, entirely exempt from the visitation of all manginant diseases. There are about two hundred and twenty hve acres of cleared land, all under a good fence, and in a high state of cultivation. There is a subject, and in a high state of cultivation. There is a subject, and in a high state of cultivation. There is a subject, and in a high state of cultivation is a subject, with commutable negro houses. In short, is is well improved.

Said form has a most fertile and productive soil, admirably adapted to the cultivation of grass, clover and small grain, &c., and can be made one of the nest stock farms in Middle I-onesser—having a sufficiency of water at every peness av portil Pos-erson can be had at any time. Persons desirous of purchasing are respectfully invited to examine the primary, and four of the attention the particulars as to the term &c., (february) P. H. PRICE.

A NURE CURE FOR CANCERS.

NYWISK having labored under one on her breast for sometime, and having tread different treatment, I ded to undertake it muself, and in less than three given no by her friends as being beyond the reach of soy care, she has for the in-t year enjoyed betterhealth than she had for many years previous, and has since given birth to a fine child, which she nurses becreff. I have also treated everal office cases, and have real with the same success.

My incamped is not the using of the Kulle, or Caustic, or histoury, but it is parely Vegetable. I also profess to once of or discuses, such as Female Discuses and Ulcers, Serenary, there that I will meet a beautiful for in a size of per one afflicted with any of the above nor. All I will of per one afflicted with any of the above named diseases, is to give me a trial. Where there is no named diseases, is to give me a trial.

sest at the restraint interpretation the cure of awency to horses, as well as a ratio and branes, do.

History's new Sarauparilla is attracting the attention of the people.

All the also e marriered popular Medicines, together with almost every other, on hand and fire alle by H. G. SCOVEL.

CHERRY PECTORAL For the rapid Cure of COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND

CONSUMPTION.

This ramedy is offered to the community with the confidence we field in an article which seridom falls to realize the aspirest effects that can be desired. So wide is the field of its usefulness and so numerical ho cause of its cores, that almost every secular or country absends in persons, public y known, who have been rentered from alarming and even desperant on semple observation, by its use. When once tried its superactive every other medicines of its kind is to apparent to escape observation, and where its virtues are known, the public he longer hashate what and does a fixed on employ for the distret log and dangerous effections of the pulmosar, organs which are incident to purclimate.

Nothing has called longer for the earnest inquiry of medical mentions the starning prevalence and taility of consumptive complaints, nor has any one class of discases had mentioned their invastigations and care. But as yet no silequate remody has been provided on which the public could depend for projection from attends on which the public could depend for projection from attends open the readmittery or gains until the introduction of the thermal Province. This article is the product of a long, laborious, and, I isothere, successful endeavor, to farming the community with such a remedy. Of this list statement the American people are now themselves respected to Judge; and I appeal with confidence to their decision. I there is any dependence to be placed in what may a every class and station certify it has done for them; if we can depond upon be assurance of intelligent physicians who make it their business of intelligent physicians who make it their business of any in chors, if there is any relatine upon anything, then it is frequently for the thirst are knewn to make and. It this set time, it cannot be too iscely published. CONSUMPTION. relative upon asything, then it is irretitinally proven that this medicine upon relieve and done care the chars of lineages it is designed for, to spond any and all others that are known to manisms. It this on time, it cannot be too irrely problemed, our too too widely known it. The afficient should know it. A remedy that care is priceless to hom. Parouse should know it. As the ability of head hearn he priceles to hom. Parouse should know it. As the should know it for head he an he priceled to no one. Not only should above the first had been entirely been and control to the first white and the country, but it is all controls. How faithfully we have seted on this country, but in all controls is shown in the fact that already this article has madine countrols is without it, and but few peoples. Although not in so general use in other nations as in this, it is employed by the most melificant in almost all divilized countries. It is extensively employed to both America, in Europe, Asia, Africa, Australia, and the far off islands of the sen. Life is as done to the postessors there as here, and they grasp at a valuable remain with every waterial. Still it is about to the public at a reasonably one price; and, what is of vanity mere is portance to them, the quality in never softered to deedline from its original standards. its quality is inversed and to decline from two riginal stand and of excellence. Every bottle of this medicine, now manufactured, is an good as ever has been made heretofore, or autactured, is as good as ever has been unde heretofore, or as we are capable of making. As told or con is spared in maintaining it in the heat perfection which it is possible to produce. Hence the patient who produces the genetic Canable Perconal can refy upon having as good as article as has ever been and by those who testify but it cures.

By pursuing this course, I have the hope of doing some good in the world, as well as the satisfaction of believing that much his been done sirency.
